## Introduction

The Politecnico di Milano Library System offers a network of libraries located in the different Campus of the University, dedicated to meeting the diverse education and research needs of its students throughout their studies.

**Leonardo Library Service:** includes the two historical libraries of the University, the Central Engineering Library and the Central Architectural Library.

**Bovisa Library Service:** includes the Campus Durando Library for the Architecture and Design Faculty and the Campus Bovisa Library.

In addition to being available to institutional users, all the Library services are accessible to those from outside the authorized institutes, as specified in the regulations to be found in the Service Charter of the SBA.

## Our services

- Politecnico online union catalogue
- Access to collections via the on-site Consultation services and by loan
- Interlibrary loan and Document Delivery service
- Reference service situated in the individual libraries
- Online information service

## Services located at the libraries

- **Home loan**  
Home loan service is available to authorised users according to the different libraries conditions.
- **Intra-university loan**  
The libraries of the SBA Area guarantee a loan service between SBA libraries. The user may, within the limits of loanable materials, make a request from their own library for available documents from other SBA libraries.
- **Consultation**  
All library material is consultable at the various sites.

## Web services

- the Politecnico Online Public Access Catalogue (OPAC) for searching for materials held by the Politecnico
- opening hours and service information for each library
- electronic journals and databases: online consultation of numerous databases and over 5000 electronic journals
- A collection of e-books. 1000 electronic books on engineering and architecture
- **POLIssearch:** meta-search engine (to simultaneously search for and retrieve online information resources, both subscription-based

and free). It offers personalised services

- **SFX:** a tool to ascertain immediately whether the Library holds the electronic version of the requested resource. It enables the user to retrieve the document in full-text or access any additional services associated with the article
- Interlibrary loan and Document delivery service: this enables the user to request book-loans from other libraries and the reproduction of articles and parts of books which are not available at the Politecnico libraries
- Online information service **Chiedi@lla tua biblioteca**, available 24 hours a day, guaranteeing a reply within 48 hours
- A request form: if you do not find the book for which you are searching
- A suggestions and complaints form regarding the services offered by the Politecnico Library System
- the Service Charter, describing the services and procedures employed by the Politecnico Library Service

All services are accessible both from the Politecnico IP network and from home via the proxy service.
